About us

ASSET Team of four highly qualified and motivated people provides accounting, bookkeeping, business and tax consulting services.

Our aim is to build a bespoke solution that is tailored to our client's specific requirements. We recognise adding value to our client's objectives by providing professional, timely and accurate service will bring benefits to all.

We aim to build a long-term professional relationship through personal and direct approach. We believe that open communication and knowledge sharing are the values leading to success.

Our vast experience in accounting, bookkeeping, tax and business consultancy is a guarantee that our clients will receive the best possible accounting services in accordance with accounting standards, regulations and best practices.

What We Offer

- Accounting services

ASSET provides full bookkeeping service, but can also focus on particular areas of your account, such as the debtors ledger, payroll, VAT and bank accounts reconciliations.

Our accounting services include, but are not limited to, following financial and accounting functions: preparation and control of documents for further processing, creating electronic batch payments, sales invoicing, account reconciliation for your bank accounts and credit card statements, managing of your accounts receivable and accounts payable, calculation of payroll and other employee benefits and contributions, financial statements as well as and custom tailored financial reporting and VAT calculation and payments.
